INDEX, VOLUME VII, 1964

Arnold, C. L.: Ethics and integrity in relationship to the corporate role of R&D, 195
Automation in research, 305
Balderston, J.: A performance and salary review system for scientists, 209
Bate, F. L.: The protection of company knowledge from theft—legal remedies, 253
Boundy, R. H.: Automation in the research process, 305
Bowie, R. M.: The role and qualifications of top-level research management, 279
Carleton, F. O.: see Jenkins, D. J.
Chapman, R. P.: The role of research service in industrial research, 27
Collier, D. W.: The road ahead for profit-supported industrial research, 129
—: How should management determine how much company Funds to invest in R&D?, 393
Committee, what makes it effective, 49
Company funds, how much to invest in R&D, 393
Crog, R. S.: Ethics and integrity in personnel relations, 183
Cudd, H. H.: The transition from scientist to general manager, 371
Dougherty, F. L.: The loss of proprietary knowledge, 317
Eberl, J. J.: Ethics and integrity in industrial research and development: Introduction, 179
—: Concluding remarks, 207
Engineering education, 261
Ethics and integrity, in industrial research and development, 179
—, in personnel relations, 183
—, related to the corporate role of R&D, 195
—, concluding remarks, 207
—, scientist's point of view, 381
Fulton, W. K.: Physical security measures, 327
Fusfeld, H. I.: Effect of government expenditures on long-range industrial research, 107
Garcia J. R.: see Jenkins, D. J.
Gibbons, C. C.: What makes a committee effective?, 49
Government expenditures on long-range industrial research, 107
Government support of Canadian industrial research, 35
Human relations in R&D, 419
Industrial research, the road ahead, 129
Industrial Research Institute, 163
Jenkins, D. J., Carleton, F. O., Peres, S. H., and Garcia, J. R.: Studies in managing research and development personnel, 349
Kelton, G.: PERT and Automation philosophy, 55
Kipp, E. M.: Twelve guides to

effective human relations in R&D, 419
Knox, W. T.: Guidelines for a technical information service, 287
—: Inter-Firm cooperation in technical information, 337
Leamer, F. D.: Salary administration of scientific and engineering personnel at Bell Telephone Laboratories, 91; erratum, 235
Miller, D. B.: Professional growth, a shared responsibility, 407
New venture evaluation, 433
Obsolescence in scientific and technical personnel, 143
Orr, J. L.: Government Support of Canadian industrial research, 35
Parmenter, R. H.: Research project selection (an industrial researcher's view), 225
Peres, S. H.: see Jenkins, D. J.
Performance and salary review system, 209
PERT and automation philosophy, 55
Physical security measures, 327
Professional growth, 407
Proprietary knowledge, loss of, 317
Protection of company knowledge from theft, 253
Research, its Future, view of electrochemical industry, 5
—, view of government and academic research, 19
Research and development personnel, studies in managing, 349
Research project selection, 225
Research service in industrial research, 27
Roethel, D. A. H.: Ethics and integrity in industrial research and development from the scientist's point of view, 381
Role and qualifications of top-level research management, 279
Ryder, J. D.: Engineering education–hindsight and foresight, 261
Salary administration of scientific and engineering personnel, 91
Science and the process of management, 79
Scientist, transition to general manager, 371
Secrecy and invention agreements, 241
Seifert, W. W.: The prevention and cure of obsolescence in scientific and technical personnel, 143
Seitz, F.: A twenty-five year look into the future of research in the nation–from the point of view of government and academic research, 19
Stratton, J. A.: Science and the process of management, 79
Technical information, service, 287
—, inter-firm cooperation, 337
Tucker, G. L.: A twenty-five year look into the future of research in the nation–from the point of view of the electrochemical industry, 5
Vaughn, T. H.: The Industrial Research Institute: The first quarter century is the hardest, 163
Weigel, W. F.: Secrecy and invention agreements, 241

RESEARCH MANAGEMENT

A PUBLICATION OF THE
INDUSTRIAL RESEARCH INSTITUTE, INC.

Volume VII, 1964

INTERSCIENCE PUBLISHERS

BOARD OF EDITORS

Robert W. Olson, *Chairman*, **D. H. Clewell, R. N. DuPuis, J. A. Hipple, Thomas H. Vaughn, Max Tishler,** *ex officio*, **Louis Marshall,** *Secretary*

ADVISORY EDITORIAL BOARD

Mr. Robert W. Olson, *Chairman*, Editorial Board; *Vice President*, Texas Instruments Incorporated

Mr. Philip M. Arnold, *President*, Industrial Research Institute, Inc.; *Vice President, Research and Development*, Phillips Petroleum Company

Dr. James Hillier, *Past President*, Industrial Research Institute, Inc.; *Vice President*, RCA Laboratories

Dr. George L. Royer, *Senior Vice President*, Industrial Research Institute, Inc.; *Administrative Director*, Stamford Research Laboratories, American Cyanamid Company

Mr. Charles G. Worthington, *Secretary-Treasurer*, Industrial Research Institute, Inc.

Dr. Eric S. Proskauer, *Vice President*, Interscience Publishers Division, John Wiley & Sons, Inc.

Dr. Chester L. Arnold, *Vice President—Research*, Stauffer Chemical Company

Dr. L. Earle Arnow, *President*, Warner-Lambert Research Institute

Mr. D. J. Blickwede, *Manager of Research*, Bethlehem Steel Company

Dr. W. E. Bradley, *Vice President—Research*, Union Oil Company of California

Dr. Joseph H. Brant, *Director of Research*, Colgate-Palmolive Company

Dr. Robert W. Cairns, *Director of Research*, Hercules Powder Company

Dr. John W. Copenhaver, *Director of Central Research Laboratories*, Minnesota Mining & Manufacturing Company

Mr. W. H. P. Drummond, *Director Engineering R & D Laboratories, Missiles & Space Systems Division*, Douglas Aircraft Company, Inc.

Mr. A. John Gale, *Vice President and Director, Applied Physics*, High Voltage Engineering Corporation

Dr. Laurence C. Hicks, *Director of Research & Development*, Allegheny Ludlum Steel Corporation

Dr. Cecil W. Humphreys, *President*, Shell Development Company

Dr. David B. Langmuir, *Associate Director, Physical Research Division*, Space Technology Laboratories, Inc.

Dr. F. J. Larsen, *Vice President*, Honeywell, Inc.

Mr. Robert F. McGinn, *Vice President, Research & Development*, A. O. Smith Corporation

Dr. Harper Q. North, *Vice President, Research and Development*, Thompson Ramo Wooldridge Inc.

Dr. Nat C. Robertson, *Vice President, Research & Development*, Spencer Chemical Company

Mr. Joseph C. Schumacher, *Vice President, Research*, American Potash & Chemical Corporation

Dr. John H. Shipley, *Vice President*, Canadian Industries Limited

Dr. W. Norris Tuttle, *Engineering Consultant*, General Radio Company

Dr. Philip C. White, *General Manager, Research and Development Department*, American Oil Company

CONTENTS

RESEARCH MANAGEMENT
PUBLICATION OF THE INDUSTRIAL RESEARCH INSTITUTE, INC.

Volume VII, Number 1 – January 1964

About This Issue 3

A Twenty-Five Year Look into the Future of Research in the Nation—From the Point of View of the Electrochemical Industry
G. L. TUCKER 5

A Twenty-Five Year Look into the Future of Research in the Nation—From the Point of View of Government and Academic Research
F. SEITZ 19

The Role of Research Service in Industrial Research
R. P. CHAPMAN 27

Government Support of Canadian Industrial Research
J. L. ORR 35

What Makes a Committee Effective?
C. C. GIBBONS 49

PERT and Automation Philosophy
G. KELTON 55

Volume VII, Number 2 – March 1964

About This Issue 77

Science and the Process of Management
J. A. STRATTON 79

CONTENTS

Salary Administration of Scientific and Engineering Personnel at Bell Telephone Laboratories
F. D. LEAMER 91

Effect of Government Expenditures on Long-Range Industrial Research
H. I. FUSFELD 107

The Road Ahead for Profit-Supported Industrial Research
D. W. COLLIER 129

The Prevention and Cure of Obsolescence in Scientific and Technical Personnel
W. W. SEIFERT 143

Volume VII, Number 3 – May 1964

About This Issue 161

The Industrial Research Institute: The First Quarter Century Is the Hardest
T. H. VAUGHN 163

Ethics and Integrity in Industrial Research and Development: Introduction
J. H. EBERL 179

Ethics and Integrity in Personnel Relations
R. S. CROG 183

Ethics and Integrity in Relationship to the Corporate Role of R&D
C. L. ARNOLD 195

Concluding Remarks
J. J. EBERL 207

A Performance and Salary Review System for Scientists
J. BALDERSTON 209

Research Project Selection (An Industrial Researcher's View)
R. H. PARMENTER 225

Erratum 235

Volume VII, Number 4 – July 1964

About This Issue 239

Secrecy and Invention Agreements
WILLIAM F. WEIGEL 241

The Protection of Company Knowledge from Theft—Legal Remedies
FRANK L. BATE 253

Engineering Education—Hindsight and Foresight
J. D. RYDER 261

The Role and Qualifications of Top-Level Research Managment
R. M. BOWIE 279

Guideline for a Technical Information Service
W. T. KNOX 287

Volume VII, Number 5 – September 1964

About This Issue 301

Presentation of the Industrial Research Institute Medal to
RAY H. BOUNDY 303

Automation in the Research Process
RAY H. BOUNDY 305

The Loss of Proprietary Knowledge
FRANK L. DOUGHERTY 317

Physical Security Measures
W. K. FULTON 327

Inter-Firm Cooperation in Technical Information
W. T. KNOX 337

Studies in Managing Research and Development Personnel
D. J. JENKINS, F. O. CARLETON, S. H. PERES, and J. R. GARCIA 349

CONTENTS

Volume VII, Number 6 – November 1964

About This Issue 369

The Transition from Scientist to General Manager
HERSCHEL H. CUDD 371

Ethics and Integrity in Industrial Research and Development from the Scientist's Point of View
DAVID A. H. ROETHEL 381

How Should Management Determine How Much Company Funds To Invest in R&D?
DONALD W. COLLIER 393

Professional Growth, a Shared Responsibility
D. B. MILLER 407

Twelve Guides to Effective Human Relations in R&D
E. M. KIPP 419

A Proposed System for New Venture Evaluation
NAME WITHHELD 437

Index 439
